Largest Circulation in the City. POPULAR SOVEREIGNTY. We publish a paper this morning on the que ties of "Squatter Soversignty, Popular Sovereignty, and State Sovereignty," from the pen-

of a distinguished gentleman of Middle Tensases, whose service in Congress was colemreneous with that of Mr. Calhoux, and who bandles the question with an ability and clearness that commend it to the good judgment of all dispassioners inquirers after truth. The whole subject is analyzed and discussed with eference to its historical bearings, and the action of southern men in Congress is invoked with great power and trassistible force to astablish the grounds upon which the South has trenofors placted herself with reference to the question. We have saldom read a more Cana able and sarrching document, or one which thalenges a closer etratiny, and we sak for it the candid and earnest consideration of all who | p leatre fruth and right to prevail.
